

BEACH TO BUSH PROGRAM – PRESENTERS NEEDED

Proudly sponsored by Clubs NSW and the Cancer Institute, rural primary schools in NSW have been benefiting from our Beach to Bush program for an incredible 25 years.

The week-long program, running from **19-23 November** in 2018, was born out of research in 1994 that showed 50% of people rescued from the surf live more than 50km from the beach.

This year marks the 25th year of the program which started in 1994 and is free for schools along the tour routes. To date, the program has educated **250,848** young people about safety at the beach and other aquatic environments.

Surf Life Saving NSW thanks ClubsNSW and NSW Cancer Institute for their ongoing support which makes this program possible.
