

GARY RECKONS WE'RE GONNA NEED MORE CUPS

The Bay to Breakers drink station is unique. Aiming to reduce the amount of plastic going to land fill, we provide the swimmers with water from reusable plastic cups. The cups are washed, stored and reused for the swim and for any other Surf Club event – it's a reusable cup "library".

With a record number of swimmers anticipated for this year's Bay to Breakers Ocean Swim, we will need more cups.
