The Be a Changemaker Training Program trains young people to create positive change in their lives and the world. The Program includes 10 sessions held one afternoon a week during the school term. Participants will take part in resilience, wellbeing, leadership and changemaking workshops.

Throughout the program, participants will develop a 'Purpose Project' to tackle a social or global issue that matters to them. This project requires young participants to identify a passion, develop an idea, and plan then complete the project during the 10 weeks. At the end of the 10 weeks participants come together with their community to share their project and what they have achieved.
